

changing the design of custom printing
...One Image At A Time

- murals
- wall coverings
- customized borders
- panel fabrics
- vinyl upholstery fabrics
- sound-transparent sheers
- acoustic fabrics and panels
- sun-control window treatments
- vintage tapestries
- light-filtering panels
- faux stained-glass effects
- displays and exhibits

Imagine freeing yourself from color and visual design limitations, inflexible material restrictions... having the comfort level of working with materials that you know work for you. And, save money too!

digitalARTS Technology™ offers direct-to-media custom digital printing for the interior design, architectural, and display markets, as well as custom printing for apparel applications. Imaginative, environmental-friendly product applications that include wall coverings, panel fabrics, murals, acoustic panels, textiles, soft-window treatments, borders, environmental graphics, displays, exhibits, faux stained glass effects; the applications are endless.

▮ **No minimum production runs** – one or a hundred & one – just let us know what your production needs are

▮ **Extraordinary color-matching** – and remarkable textural treatments for maximum durability and visual enhancement

▮ **Special enviro-responsible green design** materials, inks and dyes for colorfast and lightfast durability

▮ **Interior or exterior** applications

▮ **Photo-quality** graphics solutions that provide the flexibility of breathtaking impact or understated subtlety. Rich, full color process graphics, duotone effects, striking black and whites, monochromes, all with a saturation and density that is out-of-the-ordinary...*and on your specified materials.*

dAT can produce trompe l'oeil landscapes that transform *niches* in hospitality design, or customize murals that create renowned visual signatures for theme restaurant chains. In healthcare, our environmental graphics can aid in healing with calm, soothing images... and excite the imagination in educational and institutional design.

With **dAT's** unlimited resources...

The possibilities are endless...

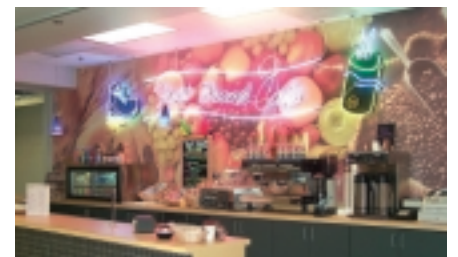

Famous "Rock-n-Roll" theme hotel, Orlando, FL
 Mazie Wiepper & Associates, Atlanta, GA

Somerset Marriott Hotel
 Brennan Beer Gorman Monk, New York, NY

Fast Break Cafe, Virginia Commonwealth University
 CM Beavan & Associates, Ellicott City, MD

**Need visual art?
 No problem.**

Think of us as your creative design service bureau. **We'll work from your art or we'll create the art for you.**

Our library of 1,000,000+ high-resolution royalty-free images are available to you. Fine art, panoramic land/city scapes, industry related theme images such as business, healthcare, food, faux finishes, textile step-and-repeat patterns..... you name it. We also provide traditionally licensed stock when needed.

your unparalleled custom print resource
to create your distinctive winning look

digitalARTS Technology™ uses environment-friendly inks and dyes that can be set for permanence. Imagine your images printed on virtually any roll material including most specified Type I and II contract-grade wall coverings, sun-control meshes, upholstery vinyls, acoustic panel fabrics, soft-window treatments, polycarbonates... textiles such as velour, linen, cotton, muslin, sheers, poplin... and the quality products of companies like Koroseal®, Acoustone®, Phifer SheerWeave®, and Guilford of Maine®.

dAT prints sizes up to 16-foot widths by any length and has the capability to seam in-house to virtually any height and width.
